

# TOSHIBA

# TOSHIBA ONE LOGISTICS

Moving goods also means moving information. Without visibility of the right documentation at the right time and place, business is not possible. We offer a wide range of products which ensure that your documents are up to date, accurate and available whenever required - the freedom to capture and analyse data.

We have the ability to seamlessly integrate into your existing workflows and networks through our products, services, solutions and support. This can instantly impact your business by reducing costs, managing demanding deadlines, whilst improving your overall business efficiency in today's challenging logistics industry.

We offer a full technology solution. More than a supplier, Toshiba is a partner. We take the time to understand your business at every level.

**We call this Toshiba One.**

INFORMATION**

# TOSHIBA ONE LOGISTICS

## WAREHOUSE FLOOR

### INDUSTRIAL PRINTING

- Goods labelling in conveyor scanning area
- Reliable printing source for shipping, pallet, warehousing, post and identification labels
- Low energy consumption in idle and print mode

### INDUSTRIAL HAND-HELD

Held by warehouse employees in the below areas for accurate item verification:

- Incoming goods
- Conveyor scanning area
- Fast moving goods area
- Slow moving area
- Quality assurance
- Staging area
- Loading area
- Outgoing goods

### WAREHOUSE DOCUMENT PRINTING

- Short term documents like pick slips can be printed using the world's first multi-function printer with erasable toner
- Print – Scan – Erase – Reuse
- Reduce your carbon footprint by up to 50% and paper usage by up to 80%
- Reuse each page up to five times

### VOICE OPTIMISED WORKFLOWS

- Increase accuracy, productivity and flexibility
- Hands-free and eyes-free technology solution which allows workers to multi-task like never before
- Ensures ergonomics and efficiency
- Dramatically reduce training time with OH&S benefits
- Optimise Replenishment, Cycle-Counting and Putaway with a voice solution for better total cost of ownership and a rapid ROI
- Low investment integration into any ERP or WMS platform

## FLEET MANAGEMENT

- Incoming and Outgoing vehicles
- Forklifts
- Lift trucks
- Order pickers

Yard management is easy with visualisation of all driver information on one display

Compilation of data from all connected systems (e.g. WMS or ERP). Data transparency at all times from stock levels, order picking, loading and delivery information

This system offers a clear line of real time communication between drivers and headquarters, plus it's fully upgradeable

SKU management and warehouse location is made simple with seamless integration into existing infrastructures

## RECEPTION

- Digital signage heightens a business's visibility of information and is an effective visual communication platform for employees and visitors
- Use as a Telematics/GPS display to track your fleet in real time and view KPI metrics for your warehouse floor
- Desktop barcode printers allows users to design and print outgoing mail labels, guest access and visitor labels directly from a notebook/PC

## INDUSTRIAL TABLET PC

- Equip your management staff with dashboard visibility of all business processes and workflows, while on the go
- Durable to handle the toughest of environments, like a high traffic DC
- Capable of integrating with multiple systems like a WMS or ERP

## MOBILITY PRINTING

- "Peel & Stick" shipping labels on demand using a mobility printer that is lightweight to wear or carry and forget that it's there
- No cores required on the label rolls so waste is kept to a minimum
- Flexible connectivity: USB, Bluetooth and WiFi certified

## CONFERENCE ROOM

- Advanced IP Communications made easy and affordable for your business
- Every business location has users with very different roles, needs and expectations. That's why Toshiba offers a wide range of choice in phones, also known as endpoints. With a broad range of available models, you can mix and match, choosing just the right Toshiba endpoint for each user

## ADMIN

### DOES YOUR BUSINESS PRINT HIGH VOLUMES OF INVOICES, CONSIGNMENTS, MANIFESTS, PODs AND REPORTS?

- Whatever your documents may be, Toshiba has a wide variety of multi-function and desktop printers that are feature rich and user-friendly
- Integrate your paper documents into your information workflow by converting paper documents into searchable, digital files, improving users' productivity

## IT ROOM

WE CAN BE YOUR TECHNOLOGY PARTNER THAT MONITORS, MAINTAINS AND MANAGES YOUR IT SYSTEMS.

- Users can concentrate on the critical tasks within your business and we can supplement your existing in-house technical staff or act as your virtual ICT Department

## NOTEBOOKS / ULTRABOOKS

- Equip your staff with business notebooks or ultrabooks that deliver security, durability, portability and reliable performance

## SHIPPING & RECEIVING

- Implement a document management system that makes data capture, management, workflow and archiving easy
- Scan your hard copy PODs and convert them into easy searchable documents
- The solutions and products grow along with you, which mean that your ECM/DMS systems will remain perpetually up to date and fully expandable

**ELO**  
Digital Office

Toshiba will work with you to improve your business workflows and processes, by:

- > **Mobilisation of information:** through mobility barcode printers, hand-held scanners, robust fleet computers and voice enabled solutions, that accurately captures and retrieves data.
- > **Real time visibility:** Equip your floor staff with industrial mobile tablets that enables them to oversee various areas of operation. The ability to pinpoint the exact location of your goods.
- > **System integration:** We work within your existing infrastructure, to ensure all platforms work harmoniously and efficiently through standardised protocols for; warehouse management system, enterprise resource planning system, transport management system, supply chain management system, terminal operating system or order management system.
- > **Eco programs** and reports to help you reduce your environmental footprint.
- > **Increased IT capabilities:** as a global ICT partner, we can manage and support all of your business ICT needs, as well as provide a 24/7 National Operations Centre to support your business.
- > **Document management systems:** turn scanned documents into searchable e-documents, to combine all disparate information in your business into one single secure point of reference for invoices, pick slips, consignment notes, manifests, PODs and reports.
- > **Print management systems:** control costs associated with document printing and maintenance, by a thorough fleet evaluation and consolidation, via a managed service.
