

## **Keypoint Intelligence recognises Toshiba e-BRIDGE Capture & Store as an Outstanding Document Capture Solution**

19th November 2020 - Hong Kong, HK – Keypoint Intelligence, the world's leading independent evaluator of document imaging software, hardware, and services, recently announced the recipients of the Buyers Lab (BLI) 2021 Pick and Outstanding Achievement Awards in the Document Imaging Software category. These coveted honours recognise the most impressive solutions evaluated by Keypoint Intelligence during the previous 12-month test cycle.

"Working with documents is increasingly a digital process, especially in the age of COVID-19," said Lee Davis, Associate Director of Software/Scanners at Keypoint Intelligence. "Businesses are leveraging all kinds of software and services to supplement their existing document hardware, pushing their productivity to the max.

"For the last year, we've been testing a wide range of these solutions, from print and fleet management solutions that enable businesses to control costs and optimise efficiency, to full blown content management and workflow platforms that can automate entire business processes," Davis continued. "Today, we honour the standout performers for their productivity-enhancing features and exceptional value, ease of use, and other key attributes."

One of the BLI 2021 Document Imaging Software Pick Awards went to the following:

### **e-BRIDGE Capture & Store**

*Outstanding Document Capture Solution*

Developed by Scanshare and sold by Toshiba Australia, e-BRIDGE Capture & Store earned the Outstanding Document Capture Solution for its ability to enable businesses to create sophisticated workflows to automate business processes and make them more efficient.

During analysis, the following features were highlighted:

- Intuitive drag-and-drop workflow creator that lets businesses create sophisticated and complex workflows.
- Free Form feature, which automatically routes documents to specific workflows based on a document's content.
- Advanced image processing, text and barcode recognition, and manual redaction features, among others.
- Ability to accept documents from a variety of sources, as well as excellent integration with a range of OEM control panels.

e-BRIDGE Capture and Store is ideal for companies looking to maximise their investment in local or cloud-based file storage. With a high performance OCR engine, it delivers all the essential functionality you require with everything you need to begin building smart document capture workflows included.

"Toshiba has developed many successful business efficiencies and time-saving workflows for our customers with e-BRIDGE Capture and Store forming an integral part of the overall solution," said Bret Davies, General Manager of Toshiba EID.

"These solutions have become even more important with customers' teams working more remotely" he added.
