

## Wax/resin - AG4

### For corner / near-edge printers

The AG4 is a super premium wax/resin ribbon developed to perform in applications that need extra mechanical resistance but at a much lower price than a full resin quality. This ribbon is very versatile, performing well on most uncoated papers as well as glossy and synthetic materials. It will withstand heat up to 110°C (230°F) and has a blackness of 1.6 (ODR). The AG4 is also available in metallic white. As with all Toshiba ribbon products its superior back coating offers the very best in printhead protection.

**Toshiba AG4 ribbons – the efficient alternative for the very latest in printing technology.**

### Characteristics

Excellent smudge and scratch resistance	Multi receptor compatibility
Very good quality at high speed printing	

### Specifications (Performances expressed in this sheet are for the black ribbon)

Ink	Type	Wax/Resin
	Melting point	85°C (185°F)
<b>Carrier</b>	Film thickness	<9µm
	PET thickness	4.5µm
	Tensile strength	>300 N/mm <sup>2</sup> (MD)
<b>Back Coating</b>	Silicone product based	Friction coefficient Kd <0.2
<b>Colours</b>	● Black, ○ Silver	

Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (40-95°F), 20-80% Humidity

### Certifications and Approvals (For other standards, please contact us)

<b>LFGB</b>	Food contact (Europe)		UL/CSA Legibility and durability of the printed label.
	1935/2004/EC		
<b>Heavy metals</b>	EC 98/638.		
<b>Ames test</b>	The ribbon is not mutagenic, does not cause DNA modifications.		
<b>TSCA</b>	The ribbon does not contain any of the toxic substances mentioned in this list.		
<b>California Proposition 65</b>	The ribbon does not contain any of the chemicals mentioned in this list. (except for carbon black which as far as we know is present in every black TT ribbons).		
<b>EC Directives</b>	1999/45/EC and 2001/59/EC. The ribbon does not contain any substance classified as dangerous for health.		

## Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

### Other Approved Ribbon Type Available

Standard applications	Wax	Wax/resin
	Super wax/resin	Full resin
Specialist resins for	Wash-care & textile labelling	Harsh chemical and industrial uses
	Extreme automotive and aviation environments
