Colour Multifunctional Devices

- Toshiba's high-end multifunctional A3 colour systems with an outstanding high volume document output at a speed of up to 75 pages per minute (ppm)

- Large and fully customisable user interface for enhanced efficiency and tailored workflows

- Easy integration into modern business environments, including cloud and mobile printing

TOGETHER INFORMATION

Cloud-ready and Secure

Today's new hybrid work environment has permanently changed demands on access to information: it must be available anywhere and anytime. Only then can organisations maintain maximum efficiency and productivity. Yet information also needs to be secure.

Toshiba's cloud-ready products and our team of experts provide the solutions you need to improve workflow and print with functionalities that are smarter and more convenient than ever before. We have implemented new features to increase productivity with the vision of Together Information – helping people and organisations share information more effectively through better products and solutions. In line with the needs of "new normal" workplaces, the series is equipped with functionalities that enable non-contact, non-face-to-face and remote work.
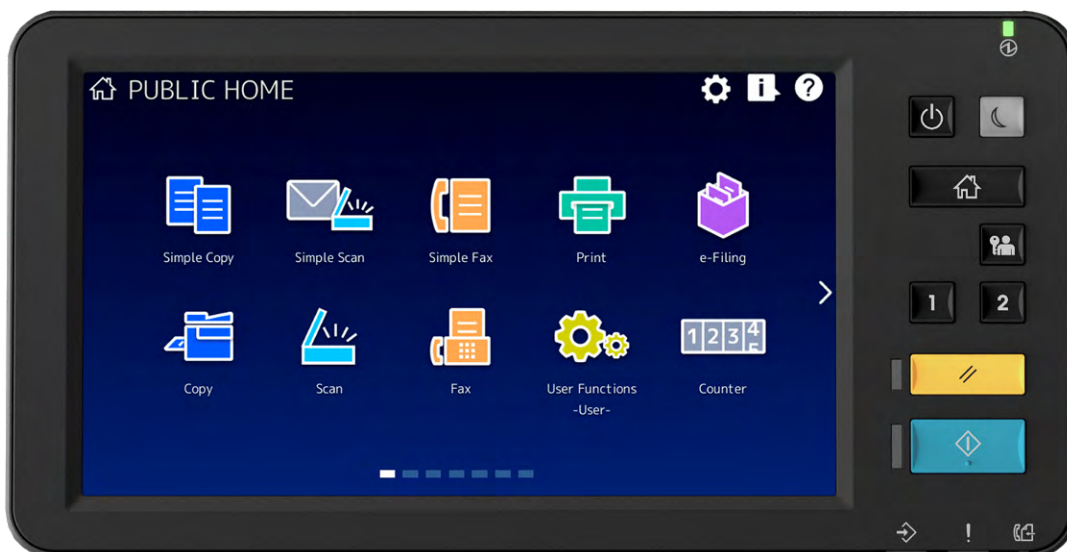

Based on the latest technological advances and security standards, we deliver end-to-end tailored solutions to help you seamlessly and securely navigate today's digital workplace. In addition, our multifunctional device (MFD) systems meet the highest environmental requirements. From consulting, cloud migration and fleet management to implementation and technical support, Toshiba is at your side.

Show your true colours: sharp, vibrant images in all hues can make your documents more beautiful and engaging. Toshiba's e-STUDIO7527AC series delivers image quality that stands out. In addition, the multifunctional systems are equipped with advanced features that meet the most exacting needs of today's and tomorrow's workplaces.

- Advanced Toshiba e-BRIDGE Next controller technology for easy customisation of document workflows and integration into IT environments
- High-quality output with a resolution of up to 1,200 x 1,200 dpi
- Colour consistency across small and large print jobs

Smart and Smooth

The system features an intuitive 26 cm (10.1") tablet-style touch screen with an embedded web browser. It is easy to use and fully customisable, allowing you to conveniently tailor settings, automate workflows and integrate third-party solutions. In line with the bold new look and feel of the new e-STUDIO series, the user interface enables simple operation and improved efficiency.

Efficiency Your Way

Workgroups within medium-sized to large enterprises appreciate the easy integration of the e-STUDIO7527AC series into existing IT infrastructures. The systems are fully customisable and offer readily accessible solutions thanks to open platform architecture.

Designed for modern businesses, all systems are capable of cloud and mobile printing. AirPrint and Mopria Print Service support and address the printing needs of mobile device users, while Wi-Fi direct simplifies access to the MFD. Toshiba's exclusive e-BRIDGE Print & Capture application enables additional printing features, and gives users the ability to scan documents back to their tablets or smartphones.

The e-STUDIO7527AC series can be equipped with apps to enhance efficiency. When the apps are combined with our embedded optical character recognition (OCR) feature, documents can be scanned as searchable PDF or editable Microsoft Word in addition to many other popular office formats.

Cloud solution apps and workflows

Seamlessly connect with your business platforms:

- Find better ways of managing your compliance obligations.
- Introduce business efficiencies through simple workflows and automation.
- Handle hard copy documents with ease.
- Eliminate information security concerns with on-board direct-to-platform processing (no intermediate software or cloud services).

Your partner in sustainability

Sustainability is a major topic for Toshiba and our customers. We make every effort to minimise the impact of our business on the environment, to conserve and protect the world's natural resources. This applies to every business process and product, including providing solutions that make our customers' operations more sustainable. Accordingly, the e-STUDIO7527AC series MFDs have also been equipped with various environmentally friendly features:

- Low-power, super sleep mode to save money and reduce energy consumption
- Compliance with the latest, most stringent environmental requirements
- Usage of recycled plastics

Security meets convenience

As a leading provider of information technology, Toshiba has always placed top priority on protecting data. The e-STUDIO7527AC series comes with state-of-the-art security features, such as anti-malware function, secure Solid State Drive (SSD) and Trusted Platform Module (TPM) with encryption function. Optionally you can choose the FIPS HDD* with data overwrite function and HCD-PP ** certification. The systems are fully compliant with the EU General Data Protection Regulation (GDPR). Deploy all the security technologies offered to ensure your data is protected when using the MFD.

* Federal Information Processing Standards Hard Disk Drive
** Hard Copy Device – Protection Profile certification

Big Performance in Any Work Environment

Toshiba's e-STUDIO7527AC series systems offer a wide spectrum of functionalities in a surprisingly compact format. The multifunctional units enable you to integrate and simplify your workflows while improving efficiency.

Robust High Speeds include 65/65/75 brilliant colour pages per minute and 65/75/85 monochrome ppm, respectively.

Image recovery menu helps within minutes by providing easy guidance for customers.

Paper and Toner Change allows you to replace paper or toner cartridges while the MFD is printing.

Multi Station print solution allows you to send print jobs from your desktop and retrieve them at up to 50 different MFDs by authenticating at that device, e.g. by simply swiping your badge.

Interrupt print job is one of the new convenient functions to make your job more efficient. Jump the queue for first priority prints.

Embedded optical character recognition (OCR) simplifies the creation of searchable PDFs and editable document formats such as Microsoft Word.

Scan to USB is great for working with documents on the go. You can even create PDF/A-2 files suitable for long-term archiving.

Scan and fax preview allows you to review, rotate and modify your scanned documents or incoming faxes before saving or printing them.

Barcode printing lets you send print data from your ERP system directly to the MFD. The barcode sequence is automatically processed and printed without additional middleware.

Print from USB for quick and easy printouts. If necessary, the MFD will automatically scale your documents to fit the available paper size.

E-mail direct printing can automatically print attached documents from E-mails sent to the MFD.

Remote Monitoring Services

We have you covered 24-7 with Kōdo Raven[2] remote monitoring services designed to maximise your MFD's uptime, performance and features.

- Auto supply of consumables
- System health monitoring and maintenance
- Updates to security and performance
- Feature enhancements
- Automated backups

Mostly performed after hours with zero inconvenience and zero downtime.

Highlights

Mobile printing

Easily connect to these systems with your mobile devices via AirPrint, or the Mopria Print Service. You can access even more mobile print and scan features by adding the optional Wi-Fi module.

Choose your user experience

The large and fully customisable user interface makes the MFD intuitive to use. Simply swipe through the menu and select the feature or function you need and modify the screen to suit your individual preferences.

Dual Scan Document Feeder (DSDF) and Double Feed Detection

The DSDF can hold up to 300 originals and processes 240 impressions per minute (ipm) by scanning both sides of the page in a single pass. With the Double Feed Detection, you can ensure that no pages are missing after scanning. In addition, with "continue" mode up to 1000 pages can be scanned in a single job.
