

## RIBBONS FOR

B-EX4T2

### Which ribbon for your application?

Toshiba offers a complete range of Thermal Transfer ribbons to cover all printing needs.

- **Your application is unique**

Short life label? Frequent contact or handling of the labeled product? High speed packing line? Small label with high density barcode? Complex label design with logos, 2D barcodes and different font sizes?

These aspects will influence the choice of ribbon.

- **Get the result you expect**

The print performance depends on the good combination between the label material and the Thermal Transfer ribbon. Rough papers, coated papers mat or glossy, synthetics (PET, PE, PP,...). Your choice of label will restrict the use of certain Thermal Transfer ribbon grades. Real field tests will validate the perfect combination.

# RIBBONS AVAILABLE FOR TOSHIBA B-EX4T2

The following genuine Toshiba ribbons are designed and manufactured to work in conjunction with your Toshiba B-EX4T2. These are the longest ribbons of the market for fewer media changes and further lowering of the total cost of ownership. Ribbons are available in various widths. For other dimensions, contact us. It is recommended to select a ribbon which is at least 5mm wider than the label.
