**TOGETHER
INFORMATION**

CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind.

Every industry has unique workflow needs. Toshiba has developed customisable MFPs to make your job easier. Intuitive and smartly integrated, our products simplify complex tasks and give you control while providing the reliability Toshiba is known for.

Toshiba's latest series delivers on our promise of Together Information – our commitment to collaborate with clients in order to provide tailored, cost-effective solutions to meet specific print, document management and content needs while helping you to meet your green objectives.

Faster, sleeker, and more volume than ever.

Toshiba's high-end A3 monochrome line-up looks great – on the inside and outside. Along with an ultra-modern look, you'll also find innovative technology like crisp, clean monochrome output delivered at up to 85 pages per minute with an impressive 6,020-sheet maximum capacity.

- > Speeds of 55, 75 and 85 ppm
- > Outstanding image quality and extra-high volume
- > Advanced Toshiba e-BRIDGE controller technology for high-quality document output with a resolution of up to 3,600 dpi x 1,200 dpi
- > High-speed, high-capacity Dual Scan Document Feeder for amazing document processing

Improve productivity and connectivity while simplifying the overall workflow.

Simple, smart and stylish.

A new 22.9 cm (9") tablet-style touch screen with an embedded web browser is easy to use and customisable to meet your needs. And, it is part of the bold new look being introduced across the new e-STUDIO series.

HOW TOSHIBA IS RAISING THE STANDARD.

Toshiba offers proof that innovative technology is more than just a claim. The e-STUDIO8508A series backs that up by offering advancements like the latest e-BRIDGE controller technology, enabling complete third-party integration and support for internally driven solutions.

AirPrint and Mopria support means mobile users can print to the MFP with ease. The e-BRIDGE Print & Capture app provides additional capabilities including the ability to scan from the MFP back to your mobile device.

Cloud Support

New Scan-to-Cloud and Cloud Print capabilities increase productivity by letting users store documents remotely and access remotely stored documents for printing. Whether it's Dropbox, Microsoft OneDrive or Google Drive the new Toshiba MFP makes scanning to these cloud-based locations a breeze.

The support for Google Cloud Print enables easy printing to the MFP from wherever you may be. Print jobs can be sent from outside the network environment without the need to install a printer driver.

Advanced Security

Even more important than functionality is the security offered by the e-STUDIO8508A series. Such technological advancements include:

- The self-encrypting Toshiba Secure HDD which provides top level security
- Optional security functions which make the systems compliant with IEEE2600.1 and meet the EAL3 Common Criteria requirements
- IPsec to securely encrypt data sent to and from the MFP

Environmental Responsibility

We have been working to protect the environment as well as your security, you can rest assured Toshiba has what it takes to protect both.

- RoHS compliant; use of recycled plastics and a low-power Super Sleep Mode to save resources
- Being ENERGY STAR Tier 2 compliant means the systems meet the latest, most stringent environmental requirements
- Electronic Product Environment Assessment Tool (EPEAT) GOLD Status - the highest level of compliance available.

FEATURES AND BENEFITS AND MORE OF THEM.

With the Toshiba e-STUDIO8508A series, you can improve workgroup connection, integrate and simplify while improving efficiency with superb image quality at unprecedented volumes.

High, Reliable Speeds include 55/75/85 monochrome pages per minute.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around one job that's held-up due to requiring a specific paper size or type.

Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Toner Change On-The-Fly allows you to replace the toner cartridges while the MFP is printing.

Scan-to and Print-from USB lets you print straight from your USB drive or scan documents to it.

Bluetooth/Wi-Fi Option to simplify workflow processes at the MFP and enable Wi-Fi Direct printing — ideal for mobile users.

Card Readers for these models are optional and can even be installed discreetly behind the cover of the systems. They not only give you fast and convenient access to your print jobs but also increases data security.

A 22.9 cm (9") Tablet-Style Touch Screen helps you access instructions, functions, and commands with the swipe of the finger.

A large touch screen is your gate to document handling which has never been easier. Size and order of icons as well as the background image can be customised. Enjoy the unique experience of working with a system that understands what you want.

Multi Station Print (option) is a serverless printing solution which allows you to release your print job at any of up to ten MFPs within your network. Irrespective of which system it was originally sent to. Simply authenticate at the system of your choice - either by card or by pin - to collect your documents.

If necessary, you can even make some last-minute changes to the print settings directly at the MFP itself or simply re-print documents without having to re-send them. This saves you time and reduces print waste. Plus, your documents are safe as they cannot be printed without you first authenticating at a system.

CONFIGURATION

HIGHLIGHTS

Advanced e-BRIDGE Technology

Toshiba's next-generation e-BRIDGE architecture features an embedded web browser, 4 GB RAM and the Toshiba secure hard disk drive enabling the MFP to easily drive Toshiba's internally developed solutions or even third-party applications.

Dual Scan Document Feeder

The 300-sheet capacity, high-speed, high-capacity document feeder seamlessly scans both sides of each page in a single pass to produce up to 240 ipm.

Embedded Apps

The optional e-BRIDGE Plus apps for Microsoft OneDrive, Google Drive and Dropbox let you send your documents directly to or print from these cloud services via the MFP.
