SECURE PRINT—
ANYTIME, ANYWHERE.

As modern work models continue to evolve, proven productivity tools like print
can create unique challenges. When employees are traveling, working from home,
or are simply on-the-go without easy access to network printers, keeping everyone
productive becomes difficult. Fortunately, e-BRIDGE® Global Print simplifies printing
from wherever you work, allowing you to send print jobs directly to cloud-connected
Toshiba MFDs, and then release when ready at the printer of your choice.
And, thanks to industry-leading security, the entire experience is worry-free for you.

WORRY-FREE PRINTING FROM WHEREVER YOU ARE

While working from anywhere has its advantages, remote printing can be complicated. Many work from multiple locations with different printers at each one, making it difficult to know how to quickly print. Or they can't queue up print jobs from home and release them at work, which disrupts the natural workflow. Remote printing can be a struggle for IT as well. Setting up multiple drivers and print servers puts a strain on an already busy department. Fortunately, e-BRIDGE® Global Print takes the hassle out of printing for employees and IT alike, adding up to a more productive workforce.

e-BRIDGE® GLOBAL PRINT MAKES IT EASY TO:

- Submit print jobs to the cloud from anywhere for location flexibility
- Print from Windows™ and macOS™ workstations, Chromebook™, iOS® and Android™ mobile devices
- Sign in from Google Workspace™ or Microsoft Entra ID accounts to quickly enable printing
- Release print jobs on demand conveniently and securely with access card, PIN or QR scan by mobile app
- Gain insights into your printing and devices with MFD usage logs
- Cut costs and minimise print waste through user quota management
- Eliminate IT overhead associated with managing print servers and more
- Simplify deployment with Microsoft® Intune® for efficient configuration

SUBMIT PRINT JOBS TO THE CLOUD

For your workplace to truly be flexible, employees need to be able to print from their home office, client's office, coffee shop, or from anywhere, really. e-BRIDGE® Global Print makes this easy. Users simply install the e-BRIDGE Global Print client onto their computer to enable printing from virtually anywhere, and from any network. Mobile users can submit print jobs easily using the e-BRIDGE® Global Print app for iOS® or Android™ devices.

AUTHENTICATE WITH THE LATEST SECURITY STANDARDS

With e-BRIDGE Global Print, you can easily sign in from your Google Workspace™ or Microsoft Entra ID accounts to quickly enable printing. All documents are securely transmitted to and from the cloud hosted by Microsoft® Azure® and Amazon Web Services™ (AWS). And we've also simplified secure authentication by allowing users to log into the MFD using a dedicated PIN, or access card or mobile device. It's your choice and best of all, little to no training is required.

RELEASE PRINT JOBS ON DEMAND

e-BRIDGE® Global Print ensures that the user has ultimate control over their print jobs. Since a job is submitted to the cloud, it can be printed on demand from any Toshiba MFD, without worry that the printout will be left for others to see. With one simple sign-on from the MFD embedded application, a print job is released when the user is ready to receive it, keeping sensitive documents secure and reducing waste from forgotten printouts.

COST CONTROL AND IMPROVED USER ACCOUNTABILITY

Promote sustainability in the workplace by enforcing centralised quota for all users. User based quota management can be configured depending on print job settings such as colour mode and page size. With quotas, users become more mindful of their print usage, leading to a more efficient and eco-friendly printing practices.

GAIN INSIGHTS INTO PRINT TRENDS AND DEVICES

Tracking your MFD usage with e-BRIDGE® Global Print comes with distinct advantages. Various reports are available such as Job Costings, User/Device Summaries and User/Device Transactions. These that can be generated on-demand, or automatically scheduled (daily, weekly, monthly, quarterly) as PDF or CSV formats. Further, utilising our API access token your organisation is able to integrate this usage data with leading data visualization tools, such as Microsoft® Power BI®, Tableau®, and Microsoft® Excel® in real time, making it easier to gain insights on device usage and user productivity.

SIMPLIFY DEPLOYMENT FOR EFFICIENT CONFIGURATION

Eliminate manual setups and say goodbye to user frustration! With simplified deployment tools like Microsoft® Intune®, e-BRIDGE® Global Print rolls out seamlessly across your organization. This streamlines configuration, saving IT resources and valuable time. Users get instant access to printing without any hassle, so they can focus on what matters most – their work.

INCREASE FOCUS AND COLLABORATION

Digital media certainly has its advantages; however, employees often find it easier to stay focused and be more engaged with printed materials. Thanks to e-BRIDGE® Global Print, you can now print from virtually anywhere and pick up meeting materials with ease to allow for increased connection and collaboration, and, ultimately, a rise in productivity.

CONVENIENT AND SECURE APP

Now available for Android, iOS and iPadOS; the e-BRIDGE® Global Print app allows users to submit their print job from their mobile device to their organisation's cloud print queue. Using the app, they can securely authenticate right on the MFD by simply scanning a QR code on the panel.

e-BRIDGE® GLOBAL PRINT FROM TOSHIBA

e-BRIDGE® Global Print from Toshiba provides a simple and secure way of printing for the anywhere workforce. It's easy to set up and start printing in no time, so you can focus on what's important and stay productive without dealing with unnecessary print frustrations – a win-win for everyone.
