# TOSHIBA

Cloud Storage Apps

Highlights

> Upload scanned documents directly to your OneDrive, Google Drive, Dropbox and Box cloud storage at the MFP

> Scan to industry standard documents formats including searchable and editable types

> Conveniently print documents stored in your OneDrive, Google Drive, Dropbox and Box cloud storage direct from the MFP panel

> Familiar tablet style interface requires virtually zero training to use

> Single sign-on means no need to Authenticate twice

> Minimal IT support with embedded on-board processing

> No middleware perfect for businesses with off-premise or cloud hosted infrastructure

> No limit on the number of users or OCR scans

Your Challenges

The working environment is constantly evolving towards a paperless office due to the digitising of hardcopy documents. However, the process of uploading hard copy documents to your cloud repository is normally a multi-step time consuming process. Further printing documents requires access to a PC or mobile device.

| Scan Document | Email Network Thumbdrive | Upload to Cloud Account | Access Cloud Account | Print Document |

Our Solution

Toshiba's cloud storage apps offer a convenient and efficient way for users to access their cloud repository right at the MFD panel and all without the need of a PC or mobile device. With single sign on connecting is just one touch away for direct scanning to and printing from your account.
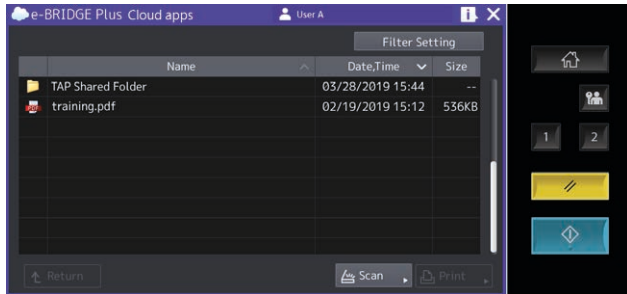

NEW... with Toshiba Cloud Storage Apps

Uploading a hard copy or printing a stored document is quick and easy

Scan to or Print from Cloud Account
