

TOSHIBA ONE

Your technology partner of choice

TOSHIBA ONE

About Toshiba One

Toshiba offer a full technology solution. More than a supplier, Toshiba is a partner. Therefore, we take the time to understand your business at every level.

You save by partnering with one supplier on one flexible Master Agreement.

- 1 One monthly Managed Service Fee.
- 2 Easy to budget and plan finances.
- 3 Cater for growth and business changes with a simple variation form.

What we offer.

Managed Printing Solutions

Toshiba can help enhance your operations and financial performance - reduce costs and increase efficiency - and to improve eco sustainability - by transforming the way you capture, manage, display and share information.

Choose from a wide range of products including multifunctional print and copying systems in both colour and monochrome. From small desktop printers to workgroup and light production our range is complete, flexible and scalable.

Document Management Software

Here at Toshiba we'll help you find solutions designed to streamline workflow, increase productivity and automate compliance.

We take time to work with your existing infrastructure to ensure all platforms work harmoniously and share business critical information across your organisation.

Auto-ID Technology

Keep your business productive and moving at best-in-class speed with Toshiba's label print systems. As a global leader, we'll help find the right fit for your operational requirements and with long lasting print heads we ensure low maintenance and minimised total cost of ownership.

Telephony

Toshiba's diverse range allows you to transform your telephone system too. Whether you run a hotel or a factory, one office or ten our systems will make you a communications pro to make sure you get the most from every enquiry, every call-back and every customer.

Managed Technology Services

Are you certain that your IT systems are in capable hands? Whether you need to supplement your existing in-house IT staff or to gain the reassurance of a virtual ICT department with a 24/7 National Operations Centre, Toshiba has helped many companies like yours solve their IT challenges.

Mobile computing and solutions

Toshiba's leading range of Notebook PCs and Tablets include products suitable for every user-group and business need, from solo operators to large enterprises, we are able to package the ultimate fleet for your business.

Visual AV Display Screens

Sleek, high-impact commercial digital signage for outstanding content display. Our specialists are on hand to help you select the right display for your content strategy.

Medical

Toshiba provides medical products and support in modalities such as Computed Tomography, X-Ray, MRI and Ultrasound. They are designed to ensure optimised productivity and continuity of service for imaging specialists around the country. Our offering includes product training, provision of product service support, infrastructure such as warehousing of spare parts and customer education.

Retail systems

Toshiba's smarter checkout solutions include POS hardware, mobile solutions, operating platforms, applications, as well as systems management tools that connect the store, the enterprise, and every consumer touch point with the POS and in-store technology platforms.
