

GS1 Supply Chain Knowledge Centres and Demonstrating Solutions

The GS1 Supply Chain Knowledge Centres, known as SCKCs, are located in Sydney and Melbourne. They are Awards winning globally innovative facilities that were developed by GS1 Australia in conjunction with input from Industries and the Alliance Partners.

The SCKCs provide a live visualization of the supply chain environment; from raw materials, through the production process into warehousing and distribution, and onward to the retail back-of-store and POS. It is an effective facility as a training and simulation of how Alliance Partners solutions are able to provide effective implementation of GS1 global standards.

GS1 Australia Team

Contact us, the Alliances team if you have any queries about the Alliance Partner Program and/or if you seek further discussion on how the Alliance Partners can help your business/organisation:

Alliance Partners

Solution Providers You Can Trust

GS1 Australia works with Solution Providers that share their ICT business solutions-oriented vision of delivering real supply chain benefits to Australian businesses of all sizes – from small businesses to enterprise sized corporations.

GS1 Alliance Partners provide a diverse range of supply chain products and services solutions to assist your business with the implementation of the GS1 System; from barcoding to eCOM to Data Management to RFID/EPCglobal and more.

The GS1 Alliance Partner Program benefits for GS1 Australia Members:

- World's best supply chain management solution providers, with knowledge to provide quality services and products solutions.
- Comprehensive best-practice case studies; as well as notification of new technologies and initiatives to improve supply chain efficiency.
- Support and assistance in making your GS1 System implementation seamless and easier.
- Security that Strategic, Business and Associate Alliance Partners have skilled GS1 Certificate* professionals.
- GS1 Australia staff at Sydney and Melbourne led by Joseli Munive focused in ensuring Alliance Partners help you.

* **GS1 Certificate:** Industry Standards training covers all aspects of GS1 system and is issued to Alliance Partners professionals that have been tested and successfully completed the GS1 Certificate course.

BUSINESS ALLIANCE PARTNER 

Joint Case Studies and Media Profiling

The GS1 Australia Alliance Partner Program provides many opportunities for ICT Solution Providers to showcase their supply chain products and services solutions. GS1 Australia works in collaboration with GS1 Alliance Partners to pool our combined expertise, share resources and develop joint case studies to present our innovative and best practice offerings to the market place. Through these case studies we bring investigated and solved supply chain challenges to life, promote and learn from our successes and continue to build on the achievements of working in partnership. The Alliance Partner Program also provides Alliance Partners with the opportunity to develop joint Media Releases with GS1 on major announcements; as well as the sharing of Alliance Partner business hints and tips content in GS1 Australia's bi-monthly Business LiNK e-Magazine for the benefit of the 20,000+ readership!

GS1 Solution Provider Directory

The Solution Providers Directory at www.gs1au.org/membership/spd/ is an online repository that provides over 16,500 GS1 members with quick access to information about our ICT Solution Providers. This directory offers company name and category search functions to help our members easily navigate and find descriptions and contact details of relevant Solution Providers to assist them with implementing the GS1 System.

The online Solution Providers Directory: www.gs1au.org/membership/spd/ offers our members access to an extensive range of ICT products & solutions including:
