THE VALUE PROPOSITION

- > Review Essential Components of your
- > IT security system Penetration Testing
- > Proactive management - identify issues so they can be resolved before they become problems
- > Provide input to effective risk management
- > Discover vulnerabilities Detailed reporting and analysis
- > Solutions for small, medium and large organisations

PROACTIVE & SECURE

GREY BOX PENETRATION TESTING

Identify vulnerabilities without damaging your systems or services during the identifications process.

DISCOVER GAPS

Our testers will find ways into your system before someone with less than honorable intentions discovers the same vulnerabilities.

EVALUATE SECURITY INFRASTRUCTURE

We review the efficiency of your current IT security measures and report on what needs to be improved.

RISK TO ORGANISATION

Our detailed report classifies risks to allow you to tackle the highest risks first, reducing the level of risks to your organisation.

PROTECT CLIENTS, STAFF AND PARTNERS

Increases stakeholder confidence in the knowledge that you are taking a professional approach in maintaining the security of your environment.
