

Open Platform Connector for Google™ Docs

Toshiba's e-BRIDGE Open Platform Connector for Google™ Docs offers higher levels of integration with e-STUDIO Multi-Functional Devices (MFD).

Now users can streamline processes to improve office efficiency and productivity, in effect reducing your organisations bottom line.

- MFD scan interface integrated with Google™ Docs
- Restricted access to your Google™ Docs account with login security
- Thumbnail preview with onscreen swipe, zoom and edit
- Collection history minimises scan keystrokes for multiple jobs
- Convert scans instantly to up to 18 different file formats when integrated through Toshiba's e-BRIDGE Re-Rite option
 - MS Office (Word, Excel, Powerpoint)
 - PDF/A for long term archiving
 - PDF with document level encryption and security
- Scan multiple jobs in a single batch with barcode separation using the optional e-BRIDGE Re-Rite application
