Toshiba QCAA Scanning Solution

Streamline Your School's Assessment Process

TOGETHER
INFORMATION

Compliant with Regulations

The Queensland Curriculum and Assessment Authority (QCAA) is responsible for developing curriculum, providing resources, and managing testing and assessment for Queensland's education community (EQ).

The QCAA is responsible for kindergarten guideline and senior secondary syllabus development, and for providing resources and services to help teachers develop curriculum, teaching and learning programs from kindergarten to Year 12.

It also provides testing, assessment, moderation, certification and vocational education and training services to Queensland's education community.

The QCAA coordinates the administration, marking and reporting of the National Assessment Program—Literacy and Numeracy (NAPLAN) tests in Queensland.

Challenges almost every school has

The QCAA sets the curriculum and checks assessments to ensure that the teaching programs are being applied and graded to the same standard across all schools in the State. Schools must digitise all their assessments, store them for the required period of time, and submit some of them, when asked, to the QCAA.

The problem is that the digitisation process of scanning and filing the assessments is a very time-consuming task. For most schools, it is done by teachers' aides and support staff, and for every hour they were standing in front of a scanner or multi-function device (MFD), they weren't in the classroom helping to deliver education.

Schools continue to invest a lot of time storing and filing assessments to help meet QCAA submission requirements. Schools must submit samples every three months and respond to additional requests quickly, which can take up to three weeks and strain resources and budgets.

This takes valuable resources out of the classroom and is typically a manual process that is time consuming, open to human error and has been described as "intense" by many.

Toshiba's QCAA Scanning Solution

Toshiba offers a solution to these challenges with our QCAA Scanning Solution. With this solution, personalised cover sheets are automatically created with unique QR codes for each class, student, and subject. Batch scanning becomes a breeze as the smart workflow routes documents, removes cover sheets and performs automatic OCR, And thanks to the unique QR code on the cover sheet, the file is automatically named according to the data specific to the exam and student. In addition, the solution integrates with PaperCut and saves data on existing infrastructure, ensuring data security on the EQ network.

Toshiba offers a five-year support agreement with additional workflows available, making the solution adaptable to increasing QCAA requirements.

Increase efficiency by 10-fold

The benefits of Toshiba's QCAA Scanning Solution are numerous. It significantly reduces scanning time from 50 minutes to less than five minutes, ensuring easy document retrieval for QCAA compliance. The solution is simple to use, quick to install, and includes a streamlined staff induction process.

It supercharges the current process, helps schools stay compliant, and reduces human error through integration with PaperCut.

Your benefits

- **Efficiency:** Reduces scanning time from 50 minutes to less than 5 minutes.

- **Compliance:** Ensures easy document retrieval for QCAA.

- **Ease of Use:** Simple process, quick installation, and streamlined staff induction.

- **Support:** Five-year support agreement with additional workflows available.

- **Supercharges the current process:** Simple, easy to use, and helps stay compliant.

- **Reduces human error:** Automated workflow

- **Time Reduction:** Important resources and staff back in the classroom

About Toshiba Australia

Toshiba (Australia) Pty Limited is part of the globally operating Toshiba Tec Corporation, active in various high-tech industrial sectors.

Toshiba is a leading provider of information technology, operating across multiple industries—ranging from retail, education and business services to hospitality and manufacturing. With headquarters in Japan and over 80 subsidiaries worldwide, Toshiba Tec Corporation helps organisations transform the way they create, record, share, manage and display information.

About Together Information

Together Information is Toshiba's vision for how people and organisations create, record, share, manage and display ideas and data. It is based on our belief that the most successful organisations are those that communicate information in the most efficient way. We make that possible through an integrated portfolio of industry-specific solutions, all of which reflect Toshiba's commitment to the future of the planet.
