# TOSHIBA SOLUTIONS FOR EDUCATION

A photograph showing three people looking at a laptop screen. On the left, a woman with short brown hair and glasses, wearing a beige sweater, is smiling. In the center, a young boy with brown hair, wearing a white shirt, is resting his chin on his hand and smiling. On the right, a woman with dark hair, wearing a blue shirt, is also smiling. They are all looking at a laptop screen which is partially visible at the bottom of the frame.

The pressure to offer curriculum on shrinking budgets is a continuous struggle in the education field. If educational standards are to be maintained, efficiencies need to be found. This can be accomplished with the power of digital transformation to automate processes, eliminate waste, and streamline operations. Toshiba is at the top of the class when it comes to assisting you in achieving digital transformation for optimum productivity.

Toshiba Solutions for Education

# BENEFITS FOR EDUCATION

## Reduced Costs

Streamlined processes reduce the volume of paper required and staff time to handle and manage it.

## Clear Communication

Rapidly get messages to every part of your campus and beyond, from one central management point.

## Enhanced Print Service

Offer printing from anywhere, any device, with full print rules and chargeback.

## Efficiency

Automated workflows help to streamline processes and enable staff to be more productive.

## Environmental Responsibility

By placing traditional paper formats with digital documents, you save resources, for a positive environmental impact.

## Compliance

Ensure all documents are managed to regulatory standards for security and retention.

# SOLUTIONS FOR EDUCATION

## STUDENT AND STAFF SERVICES

Access to information on the go is a must for staff and students. It's often expected for the user to be able to print from any device. Offering 'BYOD' mobile printing enhances their educational experience, but you still need to enforce your print rules, ensure security and usage quotas along with having full visibility of usage by individual or department.

## AUTOMATING ADMISSIONS

Meet your enrolment goals, by streamlining onboarding (and offboarding) workflows. With our expertise we can help you automate your processes of collecting data, submitting it to the appropriate departments, handling approvals, and filing for rapid search and retrieval.

## TESTING, TESTING

Whether it's primary school NAPLAN or degree level work, grading students' performance and updating their records is at the heart of your operation. Let us help with digitising your paper-based systems to save you time, resources and cost.

## REMOTE LEARNING

Not just an essential in a pandemic, remote learning is a valued educational channel at any time, allowing you to broaden your faculty student base and course offerings. Remote learning requires an efficient and secure flow of documents. Toshiba can teach you how.

## OFFICE MANAGEMENT

Automated workflows can provide efficiencies outside of the classroom, such as invoice management, incident reports, staff appraisals, and building maintenance. Validate requests intelligently, appoint for acceptance and pathway to payment.

## COMMUNICATION

With potentially thousands of students on campus, you must be able to communicate with them effectively and interactively. Toshiba offers the most up-to-date interactive flat panels and solutions to ensure that everybody gets the message.

## CLEAN AND GREEN

When training the next generation who are incredibly eco-conscious, why not demonstrate that you're doing your part by cutting down on paper and reducing waste. Digital documents, automated workflows, and online search are the key.

## COMPLIANCE AND SECURITY

Ensure that all of your student and employees personal details and data are safe and secure by limiting access to specific users. Toshiba's sophisticated document management systems will ensure that you are compliant and information fully protected.

## CUSTOMER STORIES

### DONVALE CHRISTIAN COLLEGE

“We realised that Toshiba had the right solution for us, and that they had an in-depth understanding of school environments.” “This new system enables us to actively integrate ICT into many layers of school life, something we see not as a novelty but as a necessity.”

- David Conn, Manager of Risk and Business Systems, Donvale Christian College.

### THE UNIVERSITY OF TASMANIA

“It’s rare you get to do a project that overachieves in several areas that are vitally important to an organisation’s goals. In the case of the Onsite Managed Print Service project we seem to have done this and more.” - Richard Wilson, Infrastructure Programme Manager, UTAS.
