

TOSHIBA SOLUTIONS FOR TRANSPORT & LOGISTICS

Digital transformation to keep you moving

TOSHIBA

TOSHIBA SOLUTIONS FOR TRANSPORT & LOGISTICS

Transport and Logistics rely on efficiency - receiving, shipping and tracking goods, managing invoices and payments. The more streamlined your operation, the greater the productivity and profitability.

Digital transformation is the key to efficiency - replacing slow paper-based processes with modern, streamlined automation.

BENEFITS FOR TRANSPORT & LOGISTICS

Reduced Costs

Streamlined processes mean staff are more productive and eliminate unnecessary cost.

Clear Communication

Communicate with all staff to increase safety, productivity and morale.

Faster Payments

Automated invoice processing for smoother, faster payments.

Efficiency

Automated workflows help to streamline processes so staff can spend more time on value-adding activities.

Environmental Responsibility

Reduce paper and waste by converting paper files to digital, however should your processes demand paper-based workflows, you can still do your bit with Toshiba's innovative paper re-use systems that can reduce paper consumption by up to 80%.

Compliance

Ensure your employee record management meets regulatory standards for privacy and security.

SOLUTIONS FOR TRANSPORT & LOGISTICS

MANAGE EMPLOYEE RECORDS AND MAINTAIN PRIVACY

With a large number of employees, managing their HR files, from job application to performance reviews, can be a time consuming process. With Toshiba, you can digitise all employee records, enabling efficient management and workflow. Electronic storage means you can enforce privacy rules, whilst also enabling rapid search functions.

STREAMLINING FULFILMENT

Fulfilling orders is at the very heart of your business. It can be a labour intensive process, but Toshiba has solutions to make your processes and people more efficient. We offer electronic order entry for faster processing and accurate data and label printing for tracking of goods throughout the supply chain.

CONTROLLING AND REDUCING WASTE

Moving goods around can generate a lot of paper. That makes for high printing costs. We help you reduce those costs with managed print queues, enforceable print rules, print tracking and chargeback.

FREE UP KEY STAFF

IBIS World, in its report, 'General Warehousing and Cold Storage in Australia', identifies 250 key success factors for this industry, with two of the top four being:

- Automation - Using automated technology tends to reduce labour expenses and provide industry operators with competitive advantages.
- Use of most efficient work practices - Efficient work practices minimise labour costs and ensure profitability is maintained.

Do you have valuable, knowledgeable people tied up on administrative tasks and paperwork? Toshiba can help you free them up to do what they're really good at, adding value to the business. Process automation can free them from low-grade tasks and engage them in activities that generate greater value in fewer hours.

IMPROVING COMMUNICATION

Communication with your workforce across the warehouse or factory floor is important for safety, productivity and morale. Using industry leading BenQ Interactive Flat Panels, you can create a better collaborative environment, helping to improve scheduling, training and creating interactive engaging communications.

EFFICIENT INVOICING

Automating your invoice processing drives efficiency, getting invoices out faster and payment in sooner. Digitised documents and automated workflows mean invoices are validated, assigned for approval and automatically routed for payment with minimal human intervention and maximum speed.

SUSTAINABILITY

Eliminating wastage, and using fewer of the world's precious resources makes good business, as well as ethical sense. Toshiba has solutions to help you reduce paper wastage and create an environment where business can flourish into the future.

CUSTOMER STORIES

CAPITAL TRANSPORT

“Toshiba equipment is reliable and on the rare occasions when we do need support, it is excellent. Above all, we have great account management - the Toshiba team are honest, provide clarity and they always think about us, the customer, first.” - Adrian Bolzan, National IT Manager, Capital Transport.

PPK GROUP LTD

“Invoices are literally flying around the business and my team are almost never touching them. Being able to see where all invoices are at any one time, across 3 different locations, is something that I could never have achieved without considerable effort from my team. I cannot imagine ever having to process them manually again.” - Fiona Wilson, Group Financial Controller, PPK.
