NOTE: The **Universal, Postscript and XPS** Installer Driver files are available. This example is using the '**Uni Installer**' on a **e-STUDIO5005AC** device

## Procedure

 Download the Driver Installer under the 'Packages' dropdown from the Toshiba web site <u>https://www.toshiba-business.com.au</u>. Once the driver package has been downloaded & saved, extract the driver files

3. Select OK for the language

4. Installation will start and wait until dialogue box appears to select 'Next >'

Note if you see below dialogue box it means that the driver (possibly a previous version) has already been installed, make sure radio button for 'Repair' is selected and then select 'Next >' then 'Install'
