

TOSHIBA

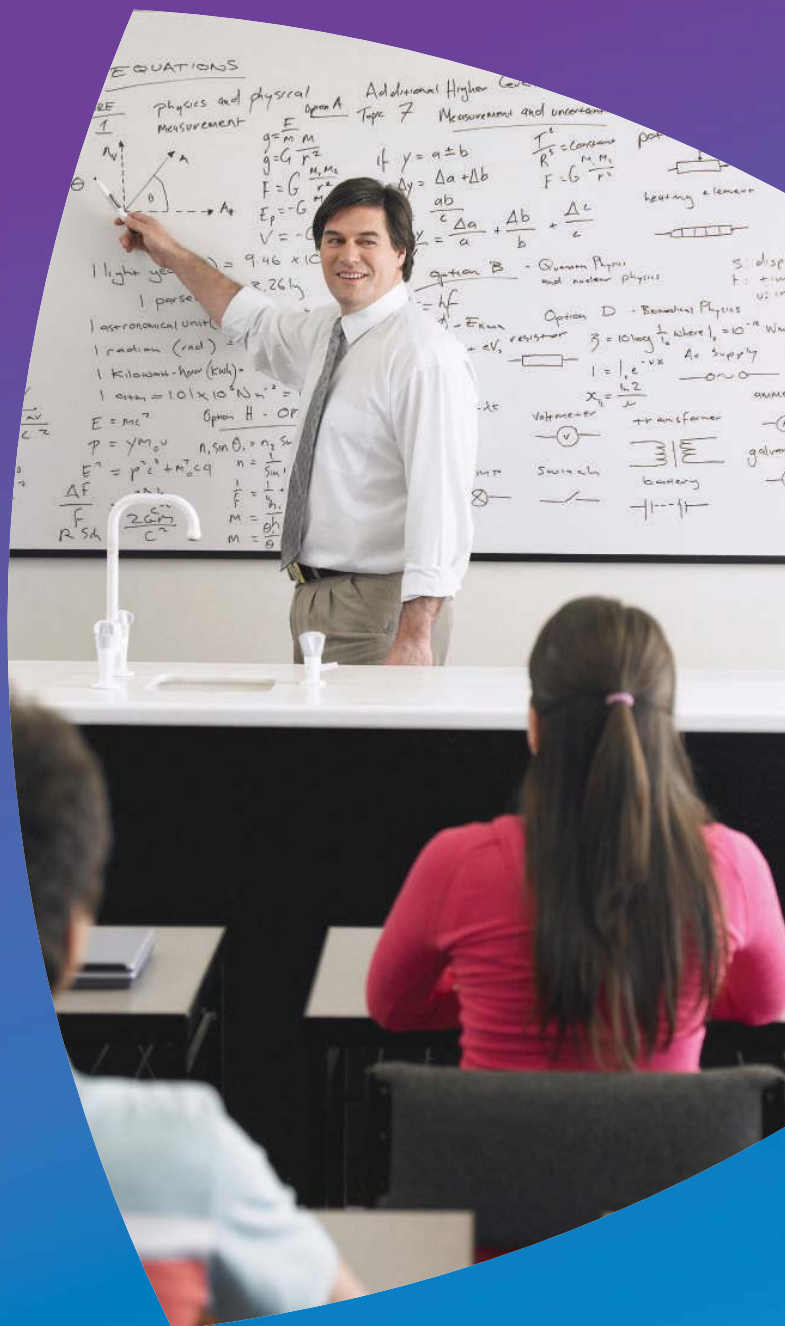

TOSHIBA ONE

Few organisations are more vital to the common good than educational institutions. But sadly, the steady tightening of budgets and a growing demand for resources have challenged schools to do more with less than ever before, putting extra pressure on education systems.

That's where we come in. We get that schools like yours have their own set of challenges and opportunities and as a result need a customised solution that is designed specifically to enhance and optimise your internal processes.

We offer a full technology solution. More than a supplier, Toshiba is a partner. We take the time to understand your business at every level.

We call this Toshiba One.

**TOGETHER
INFORMATION**

TOSHIBA ONE EDUCATION

TOSHIBA ENVIRONMENT

Toshiba is committed to playing a leading role in helping establish a sustainable society.

Our environmental initiatives include:

- Toner Recycling program 'close the loop'
- Printer Recycling program 'ANZRP'
- The development of the world's first Multi-Function printer with erasable toner, reducing your carbon footprint by up to 50% and paper usage by up to 80%

ADMINISTRATION OFFICE

We know your tasks can vary widely on a day-to-day basis; carrying out all of the extra jobs that keep the school moving, including printing school banners, laminating posters - the list goes on!

We can help make your life easier with:

- Intuitive easy to use products. No need for constant training.
- Specifically designed waterproof, laminate free banner paper for those last minute printing jobs
- Products that work with your current systems

MOBILITY

Our Cloud and Mobility solutions enable mobile users to access information anytime, anywhere. Content can be created, accessed, shared and printed through a cloud storage application.

BUSINESS MANAGER

We understand business managers need to keep revenue up and costs down.

We can help by:

- Offering comprehensive print and solution managed services that reduce costs and improve efficiency
- Supplying all your school hardware, solutions and service needs, under one partner

PRINCIPAL

We understand the challenges of running a School.

We can help by:

- Being a technology partner, not just a supplier
- Growing with you. As your school needs evolve, so do our technology solutions

IT MANAGER

Most IT departments are under resourced in equipment and manpower. Not only that, you have to deal with multiple vendors that don't integrate with your current systems.

We can help by:

- Supplying your hardware needs, all from the one partner
- Integrating with leading school management systems
- Having the highest level of security in all of our products
- Industry leading service and support

NETWORK/SERVER

CLASSROOM

CANTEEN

Toshiba display panels
Improve your communication by keeping students up to date with the latest announcements

Auto ID/POS System
Toshiba point-of-sale terminals allows students to pay for items using their student ID

LIBRARY

Swipe card technology
Toshiba swipe card technology allows students and staff to authenticate and print/scan securely and conveniently

Toshiba will work with you to improve your schools document workflows and processes, including;

- > **Enrolment workflows** for capturing documents for school enrolment, including identification, medical forms and referrals.
- > **Incident management processes** for the collection and direction of information relating to incidents at school and automatically routing to the most appropriate staff member based on severity.
- > **Eco programs and reports** to help reduce your environmental footprint
- > **Digital student portfolios** retain samples of student work to present to parents, and to compare samples from years prior; including multimedia, audio and written work.
- > **Cash-free campus solutions** for student purchase items by integrating with Toshiba Touch POS register for canteens, uniform shops and other amenities.
- > **Print management systems** for the control and recovery of costs associated with document printing. Implement charges and budgets for student and staff printing, as well as the administration of credits through card-based systems. Automatic payment gateways enable students to top up credit.
- > **Student records** are managed digitally in a secure electronic archive and available at the touch of a button. The workflow automatically configures documents for long-term archival and can be retrieved via the web portal.

Toshiba are proud to work with the following education system providers:
