e-BRIDGE Plus for Microsoft Universal Print

Modern Cloud Printing for the Hybrid Workplace

Secure printing, simplified management, and flexible document release with Toshiba and Microsoft.

Connect print to the modern workplace

Secure. Flexible. Cloud Managed.

Today's workforce expects to work from anywhere, on any device, without the complexity of traditional print infrastructure.

Toshiba's cloud print solutions bring together Microsoft Universal Print, Toshiba Print Support Application (PSA), and secure release technologies to deliver a modern print experience that is simple for users, secure for IT teams, and scalable for growing organisations.

Whether employees are working from the office, home, or on the move, Toshiba helps keep printing available whenever and wherever it's needed.

Why modern organisations are moving to cloud printing

Eliminate Print Servers

Reduce infrastructure complexity by moving print management to the cloud and minimise the need for on-premises print servers.

Print from Anywhere

Enable users to print from Windows, Mac and mobile devices through Microsoft's cloud-based print platform.

Simplify IT Management

Manage printers, access, and policies centrally through Microsoft 365 and Universal Print.

Strengthen Security

Ensure documents are only released when authorised users are ready to collect them.

Support Hybrid Work

Provide a consistent printing experience regardless of location, device, or workplace model.

Enhance Universal Print with Toshiba

Microsoft Universal Print simplifies cloud printing, while Toshiba extends the experience with additional print capabilities and advanced device integration.

Toshiba Print Support Application (PSA)

Unlock advanced Toshiba printing functionality while leveraging Microsoft's modern print platform.

Key Benefits

- Expanded print settings and finishing options
- Improved support for Toshiba device capabilities
- Optimised experience for Microsoft's modern print architecture
- Reduced dependency on traditional print drivers
- Future-ready support for Windows Protected Print environments

Secure release printing your way

Protect confidential information and reduce unclaimed printouts with secure release options.

Users can authenticate and release print jobs using:

Mobile Release – Scan a QR code using the Microsoft 365 mobile app and securely release documents directly from a smartphone.

PIN Release – Authenticate using a secure PIN code before printing sensitive documents.

Badge Release* – Leverage existing employee access cards or ID badges for a seamless print experience.

Print anywhere with Universal Print Anywhere

Give users the flexibility to print once and collect at any connected MFD.

Universal Print Anywhere enables users to submit a print job without selecting a specific printer and securely release it from any participating device within the organisation.

Benefits

- Greater workplace flexibility
- Reduced abandoned print jobs
- Enhanced document security
- Improved user productivity
- Ideal for hybrid and hot-desking environments

Modern Printing. Simplified.

Toshiba combines Microsoft Universal Print, secure authentication, and cloud-managed printing to deliver a secure, flexible, and future-ready print experience for today's workplace.

Compatible Toshiba MFD's

Check with your authorised Toshiba representative for the most up to date information.

*Requires optional card reader and e-BRIDGE Cloud Authentication for Microsoft app
